

HALF-TIME BOARD

THE BASKETBALL HALF-TIME BOARD

The only electronic board designed just for Basketball. A great tool for any coach, you can design your plays and print them to handout to your players, or save to a USB memory stick for e-mail and online posting. Two writing panels allow you to design plays on one panel and then advance to another surface to write up additional information. Fill the board with your notes, simply print or save and then erase. Because **no computer is needed** to print or save your notes, you can roll the board into the gym, out onto the field, or into the locker room.

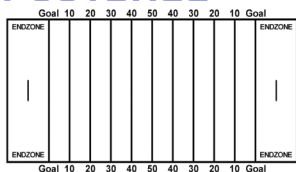

Featured Board: **M-11W** (70" x 35")

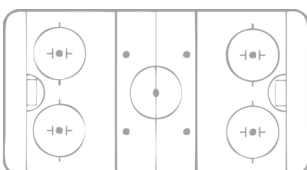

- Available in Three Board Sizes
